Discover

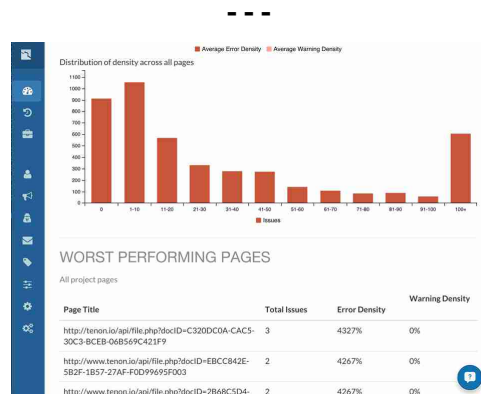

Tenon.io can identify
508 and WCAG 2.0

issues in any environment - even on your developer's laptop. Because production is a bad place to discover bugs.

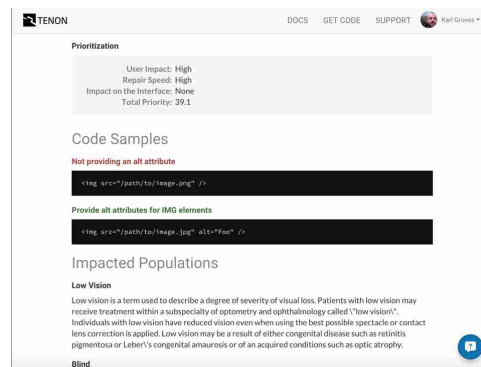

Determine Your Risk

How exposed are you? Tenon.io's advanced reporting will show you. Tenon.io's algorithms will also help you prioritize what to fix first.

Remediate Issues

When issues are found, Tenon helps turn internet noise into clear guidance so that you can get on with your work.

“Tenon's API is well-documented and easily integrated with our workflow

– Leigh Harrison

Department of Internal Affairs, New Zealand Government

**“Calling the API and getting results is straightforward. We used it [...], along v
mashup of another API, to create our own website testing application.”**

– John Rochford, Program Director and Faculty Member

UMass Medical School.

“Tenon is a tool I lean on every day and I love it! It makes me a better developer
