### What do my scores mean?

**Rules are sorted in order of impact upon score**

Optimizing rules at the top of the list can greatly improve your overall score.

**Not every recommendation will apply to your page**

The recommendations are meant to be generic, best practices; some things will be out of your control (eg. external resources) or may not apply to your page.

### Need optimization help?

Gossamer Threads can handle all of your speed optimization requirements.
